TacStar Front & Rear Grips for AR-15

For Release: Immediately
January 2008

NEW!

TacStar's Innovative AR-15 Front and Rear Grip Set Combines Tactical Expertise With Pachmayr Recoil Softening Technology

TacStar - a Lyman Brand and leader in the field of tactical equipment - has introduced unique front and rear grips for the AR-15 incorporating the advantages of Pachmayr's decades of grip design expertise. TacStar's leading edge, techno-ergonomic design and aggressive styling upgrade the look and function of these popular rifles.

Incorporating Pachmayr's premium Decelerator recoil absorbing material, these new front and rear grips deliver a substantial improvement in both comfort and control. Like other popular TacStar accessories, the new grips are fast and easy to install with no gun modification or gunsmithing needed. They can be easily removed to return the gun to its original factory configuration.

The Rear Grip sports a finger groove design which combines with the Pachmayr Decelerator material to provide secure, comfortable handling. The Front Grip is designed to be easily tightened on to a Picatinney mounting rail. The folding design and Picatinney rail mounting make it distinctive and ultra-versatile. The grip can be folded forward or backward at the shooter's discretion. Grips are available individually or as a set.

NEW!

The New AR-15 Front and Rear Grips and the complete TacStar line of tactical products, as well as all Lyman products and brands, are available nationally through gunsmiths, firearms and sporting goods retailers and mail order companies. Pachmayr, TacStar, Trius Traps, Butch's Gun Care, TargDots, Uni-Dot Sights and A-Zoom Precision Snap Caps are all Lyman Brands.
